

ISO Tank Container Fully Collapsible Handrails

Aftermarket fully folding and collapsible handrails for operators needing high level access to the top of iso tank containers.

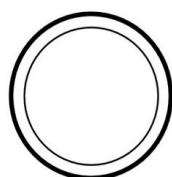

These handrails fold and lock into position during use and stowage during transport.

Supplied as a complete kit these can be supplied in left or right handed variants pre-fabricated for ease of installation.

Other types available upon request including ground operated and top rail mounted designs.

Note: The image above shows right hand handrail in the upright position.
